The Easy Guide to  
**MiSTRIP and MiTRIX**

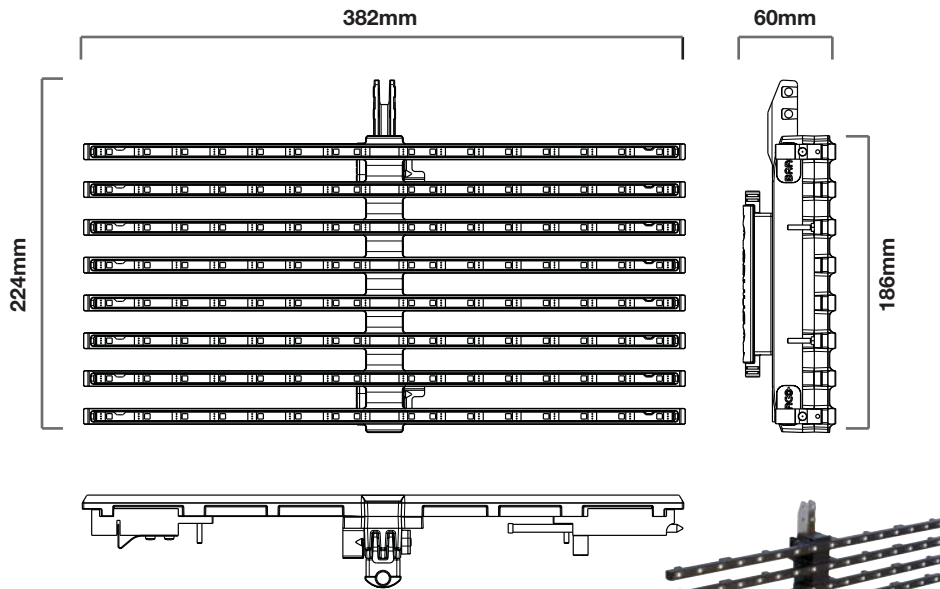

Creative LED

Flexible and See-Through

Available for hire from:

## MiTRIX

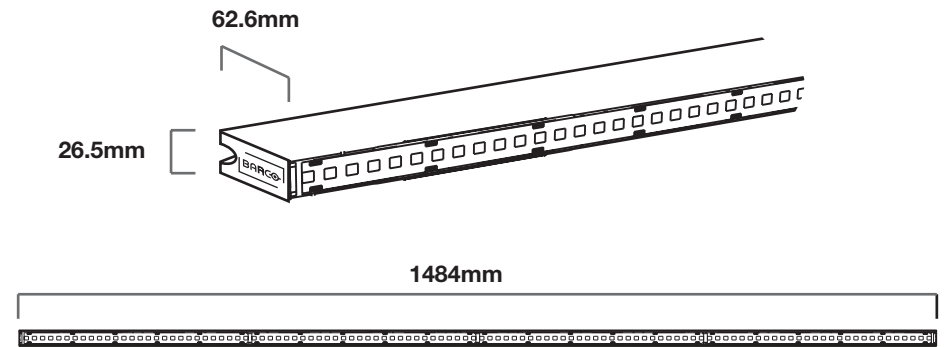

Pixel Pitch	24mm
Brightness	3000 Nit
LED Configuration	3-in1 SMD
Viewing angle	>145° (symetrical)
Transparency	55%
Power Consumption	50w/Tile
Weight/Tile	1.3 kg
Processing	16-bit per colour @ 50Hz
Refresh rate	800Hz min (PAL/NTSC)
Truss build-up	Max 48 tiles high (9,2m)
Protection rating	IP65
Operating temp. range	24 MiTRIX tiles per controller (typical video content): -20° to +40°
D320 input compatibility	Data DVI up to UXGA, SDI, HD-SDI, S-Video, composite, YUY

MiTRIX is lightweight, very bright delivering 3000 nit  
MiTRIX is weatherproof and is suitable for both indoor and outdoor operation (IP65)  
MiTRIX is highly transparent

## MiSTRIP

Pixel Pitch	13.25mm
Brightness	6100 Nit
LED Configuration	3-in1 SMD RGB
Viewing angle	145° (symetrical)
Weight	2.4 kg (1484mm Strip)
Processing	15.8-bit per colour
Refresh rate	800Hz
Protection rating	IP65
Operating temp. range	-20° to >45°
D320 input compatibility	Data DVI up to UXGA, SDI, HD-SDI, S-Video, composite, YUY
Mounting	Multiple movable M6 threads on Integrated track excl. connector: 55mm (with 63mm)
Depth	
Certifications	ETL (UL equivalent), CEBC, CE, FCC, Class A

MiSTRIP is suitable for indoor and outdoor applications.  
MiSTRIP produces superior images that are exceptionally bright  
MiSTRIP metal construction is robust enough for performers to walk on, or even dance on.
